Training workshop entitled:

Activation of the Guided Week

The Guidance and Counseling Unit at the College of Applied Medical Sciences in Wadi Al-Dawasir under the supervision of Dr. Mervat Al-Kashef, in cooperation with the Guidance and Counseling Unit at the Deanship of Student Affairs, activated the guidance week, which includes the following axes:

Activating the World Breast Cancer Day, activating the Hour of Guidance program and presenting awareness and national guidance This is in addition to creating a program for struggling and average students by helping struggling students to improve their level - Raising students' motivation to achieve according to codified guidance methods - Providing counseling services for this category and promoting academic excellence by providing support to outstanding students and honoring them financially and morally, which motivates them to double the effort and continue to excellence and achieve a sense of self satisfaction.

We ask Allah for success and repayment for all.
